The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/550,869	Applicant(s) WILLIS, STEWART KENYON	
	Examiner SEAN D. ANDRISH	Art Unit 3672	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1 - 12 is/are pending in the application.

DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the “abandonment and recovery crane” must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

2. Claim 8 is objected to because of the following informalities: the phrase “Abandonment and Recovery” should not be capitalized. Appropriate correction is required.

Art Unit: 3672

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 12 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The use of the phrase "may include" in the preamble renders the claim limitation vague and indefinite because the claim does not positively recite any claim limitations.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

6. Claims 1 - 12 are rejected under 35 U.S.C. 102(a) as being anticipated by Stockstill (2003/0091395).

Regarding claims 1, 2, 4, 5, 7, and 9 - 12, Stockstill discloses an apparatus comprising: a tower (52); a tensioner (unlabeled element shown above and below welding station 85 in Figs. 14A and 14B; also see tensioner 23 in Fig. 3); a pipeline (53); a radius controller (bend controller 21); a hold-off clamp (86), the clamp (86) mounted independently of the tower (52) on a trolley comprising a beam and two rails (87, 88) which can be moved into and out of alignment with the laying axis of the tower (52); and the trolley is provided with a work area (25) (Figs. 3, 14A, and 14B; paragraphs 0006, 0115, 0116, and 0127).

Regarding claim 3, Stockstill further discloses a moon pool (18) that defines a working space (Fig. 4) and the opposite sides of the moon pool are equivalent to outriggers.

Art Unit: 3672

Regarding claim 6, Stockstill further discloses the clamp (86) is operable to at least one side of the lay axis (can move laterally along rails 87 and 88) (Figs. 14A and 14B) and hydraulic cylinders (121, 122, 123) allow clamp (86) to be operable forward and aft of the lay axis (Fig. 15).

Regarding claim 8, Stockstill further discloses an abandonment and recovery crane (paragraph 0029).

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Fikes et al. (2002/0074125) teaches an opening in the platform of a drilling rig having two sets of rails, the rails of each set positioned on opposite sides of the opening, to allow drilling equipment to be moved in nearly any X-Y coordinate within the opening in order to maximize the use of available space on the platform.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SEAN D. ANDRISH whose telephone number is (571)270-3098. The examiner can normally be reached on Mon - Fri, 7:30am - 5:00pm, Alternate Fri off, EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Bagnell can be reached on (571) 272-6999. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
